

One Day Workshop floral with Joan Macnaught

“Fun with Aussie Flowers”

The focus for this workshop will be to develop freedom in approaching floral painting in pastels.

We will be discussing qualities of pastels & papers briefly, before focusing on design & colour planning. We will consider the delicate & dramatic variations required for depicting different blooms, & will aim at an interpretation rather than a photographic representation of the flowers we are painting.

This is an opportunity to build confidence in application & gain experience in depicting Australian wildflowers. Your painting will be a genuine Australian souvenir!
